

FOR YACHT & BOAT OWNERS

Your yacht, professionally managed.

Independent management for boats in service — protecting the value of your asset, controlling running costs, and giving you one clear point of oversight.

10–20%

typical saving on annual running costs

1

single point of contact for your boat

360°

view of cost, condition & history

MANAGEMENT · COST CONTROL · OVERSIGHT

Ownership without the operational burden

Owning a yacht shouldn't mean chasing invoices, suppliers and maintenance schedules. We act on your side — independent of the yard and the broker — to keep your boat running well, spending sensibly, and holding its value.

WHAT OWNERS DEAL WITH — AND WHAT IT COSTS

30+

suppliers & invoices a mid-size yacht juggles each year

15–25%

markup often hidden in un-managed refit & parts pricing

2×

resale friction when service history is incomplete

THE MANAGEMENT SCOPE

COST

Profit & Cost Management

Full visibility on budgets and running costs, with active management to keep spend controlled season after season.

Example: a line-by-line annual budget flags a fuel-account overspend early — corrected before it doubles.

SUPPLIERS

Procurement & Oversight

We manage purchasing and suppliers for you, using our EU–Asia network to secure better terms on parts and services.

Example: a haul-out quote benchmarked across yards saves 15–20% on the same scope.

UPKEEP

Maintenance & Refit Tracking

Structured tracking of every intervention, so nothing is missed and each job is documented and justified.

Example: a planned-maintenance calendar prevents a missed engine service becoming a warranty dispute.

RECORDS

Documentation (Crew Mate)

Crew documents, service history and asset records kept clean and centralised — vital for operation and resale.

Example: a complete digital logbook shortens due-diligence when it's time to sell.

ALWAYS-ON VISIBILITY — BOAT MATE

◆

Monitor

Condition, hours & alerts in one dashboard.

◆

Plan

Maintenance scheduled before it becomes urgent.

◆

Control

Every cost approved against budget.

◆

Preserve

Full history that protects resale value.

ILLUSTRATIVE MANDATE

Taking over management of a privately-run motor yacht

An owner was managing suppliers and refits directly, with costs creeping and records scattered. We centralised purchasing, benchmarked suppliers, and moved maintenance and documents onto our tools — one budget, one history, one contact.

10–20%	lower annual running cost
0	missed scheduled services
100%	documented service history

One point of contact for your yacht.

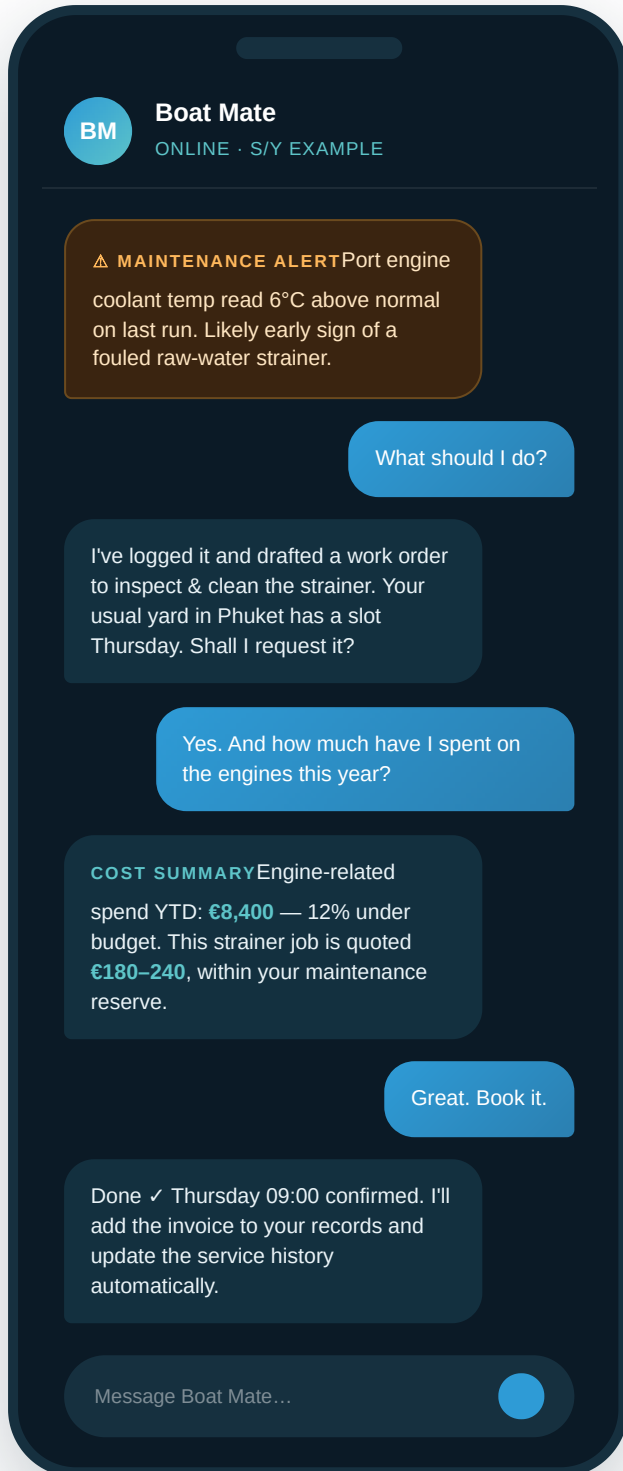

Tell us about your boat and how it's used today. We reply within 1–2 business days to discuss a management scope built around you.

Book an Initial Call

marinemate-consulting.com

Your yacht, one message away

Boat Mate watches your boat's systems, flags issues before they escalate, and answers cost questions in plain language — so you stay in control from anywhere, without waiting on a phone call.

From alert to action — without lifting the phone

Every conversation is logged against your boat: the alert, the decision, the cost, and the closed job all flow into one record you and Marine Mate share.

⚙️ Proactive alerts

Sensor and usage data surface issues early — a strainer, a battery, a service due — before they become breakdowns.

€ Instant cost answers

Ask about any budget line and get a straight number: spend to date, vs budget, and what a quoted job will cost you.

✓ One-tap actions

Approve a work order and Boat Mate books the yard, files the invoice, and updates your service history.

📁 Living record

Every decision feeds the documentation that protects your boat's value at resale.

24/7
